

# Plant-Based Packaging Grown & Made in the USA

Compostable, high-performance meat and protein packaging made from grass.

## Simplified US Supply Chain

- Automated manufacturing facility for rapid output at scale
- Ethical sourcing, reducing risk associated with supply chain disruption and labor sensitivities
- Stable pricing
- Consistent supply
- Fast, nationwide delivery
- Food safety compliance
- Stringent quality control

## High-Performance Products

- Packaging that performs throughout, keeping proteins fresh cold chain to end consumer
- Engineered for high speeds and rigorous handling, including denesting, machine operations, boxing and transportation
- Seamlessly integrates with existing food packaging lines and machinery
- Highly durable and moisture-resistant
- Certified compostable\*, no added PFAS
- Stock and custom products available for national distribution

## Sustainability Made Easy

- Meet your brand's goals while building customer loyalty
- Commercially compostable\*
- Converts underutilized land into consistent income for US farmers
- Made from perennial grasses that enrich the soil
- No added PFAS
- BPA, dye, gluten and chlorine free

Grown & Made  
in the USA

Commercially  
Compostable\*

No Added  
PFAS

USDA Certified  
Biobased

BPA, Dye, Chlorine  
& Gluten Free

\*Meets ASTM compostability standards for  
compostability in commercial composting operations.
